J. Read the text and answer the questions:

The Stone Age started around 2.5 million years ago when early humans first produced the first stone tools. During the Old Stone Age humans survived by gathering wild nuts, fruits, and berries. They also hunted wild animals. The tradition is that women did the gathering and men did the hunting. In the New Stone Age, the way people lived changed significantly. People began building houses instead of moving from one place to another place. They built walls around their houses to protect themselves and started to raise plants and animals.

30. When did the Stone Age begin?
