3	<p style="text-align: center;">Reading</p> <p>Read the following text and answer the questions after it.</p> <p>Your heart is really a muscle. It is located a little to the left of the middle of your chest and it is about the size of your hand with the fingers closed together. There are lots of muscles all over your body- in your arms, in your legs, in your face, even in your back. But <u>this muscle</u> is special because of what it does .</p> <p>The heart sends blood around your body. The blood gives your body the oxygen and food it needs. It also carries away harmful things from your body. Your heart is same as a pump or two pumps in one. The right side of your heart receives blood from the body and pumps it to the lungs. The left side of the heart does the opposite. It receives blood from the lungs and pumps it out of the body.</p> <p>By the time you are grown up, your heart will be pumping about 70 times a minute. Heart can get sick. Exercise is one way to keep your heart healthy. Eating fruits, vegetables and low fat meat is another way to keep your heart healthy. You should have regular physical checkups. The most important way to keep your heart healthy , however is not to smoke.</p> <p>Lung (ریه) muscle (ماهیچه) chest (قفسه سینه)</p> <p>A. Give full answers.</p> <p>35.
