They have small animals like ..... and big animals like .....</p>	3

N	<p>3 مته زیر را بخوانید سپس ببینید سؤالات دادی شدی پاسخ .</p> <p>Microbes are really wonderful. They are everywhere! They live all around you, on you and inside you! Microbes are very small, so you can't see them. Some microbes make you sick but most others keep you healthy and even help you to fight disease. There are so many different types of microbes. Bacteria and viruses are two important types of microbes. Bacteria have only one cell. They can live in any area of the earth. They aren't all bad; in fact you couldn't live without some bacteria. Viruses are smaller than bacteria. They cannot live on their own. Viruses need to be inside a living cell to live and grow. Viruses usually attack your body and make you sick. <b>True/False.</b></p> <p>41. Microbes are very large. T <input type="checkbox"/> F <input type="checkbox"/></p> <p>42. Viruses cannot live in any place in the world. T <input type="checkbox"/> F <input type="checkbox"/></p> <p>43. All of the microbes make you sick. T <input type="checkbox"/> F <input type="checkbox"/></p> <p><b>Fill in the blanks.</b></p> <p>44. Two important types of microbes are ..... and .....</p> <p>45. Bacteria have only one .....</p>	3
